

AMENDMENTS TO THE CLAIMS

Please cancel Claims 18-27, 44 and 45 without prejudice.

LISTING OF CLAIMS

1.-47. (cancelled)

48. (previously presented) A mobile station for use in a wireless communication system comprising:

a processor that determines a reconnection parameter when a reconnection attempt is carried out;

a transceiver that transmits a connection request along with the reconnection parameter,

wherein the reconnection parameter has a reason for the reconnection attempt and a number of the reconnection attempt,

the processor determines whether the reason is a first reason or a second reason, and

the processor determines a first value for the number of reconnection attempt when the reason is the first reason and determines a second value for the number of reconnection attempt when the reason is the second reason, wherein the first value is the number of the reconnection attempt attributable to the first reason and the second value is the number of the reconnection attempt attributable to the second reason.

49. (previously presented) The mobile station according to Claim 48, wherein the first reason is determined based on access failure.

50. (previously presented) The mobile station according to Claim 48, wherein the second reason is determined based on an access retry.
